SENATOR TAYLOR AGAIN INTRODUCES

HIS FEE AND SALARY BILL. Police Commissioners Will Do Without

Secretary-Boys to Be Tried for Disturbing a Religious Meeting-Cases Awaiting Trial.

The preliminary hearing of Police Ser-eant Hampton, charged with killing Edgeant Hampton, charged with killing Ed-gar Eagan in the First ward on October 27, was resume I before Justice Betts yesterday the stand, and the attorneys for the defense resumed the cross-examination. Aft-er she left the stand her sister, Mrs. Lizzie Chappel, was called. She was on the stand at the coroner's inquest. She said at that time that her father, Mr. Burnes, got a re-volver from a bureau in the house be-

Dr. H. M. Downs, who made a post mor-

tem on Engan's body, was the last witness called for the day. He gave a description of the wound which cansed Egan's death. He stated that the bullet that cattered Eagan's body was the one that caused death. He did not examine the wound in the head very closely, as he did not deem it necessary. The other one was sufficient to cause death. The doctor also said that from the way the bullet entered the body the deceased's left arm must have been raised.

When it came to adjournment the attorneys had another till.

Senator Taylor Has Again Introduced His

Fee and Salary Bill.

Senator Taylor has introduced his fee and salary bill again in the legislature. It is a bill aimed especially at the officers of Wyandotte county and is said to be the same one or one identical with the one which he introduced two years ago. The bill makes some very sweeping reductions in fees and if it passes there will not be the rivalry for various offices in the county that is generally manifested each cam-naism.

that is generally manifested each campaign.

An official stated last evening that the bill provides for salaries, and very small ones at that, in comparison to the responsibilities of the various officers. The officials apprehended that Senator Taylor would present the bill again this session, and, as a result, they have been very nervous. A committee will likely be appointed to appear before the committee having the bill in charge to endeavor to have it killed or amended so that the officials will fare better.

KANSAS LEGISLATURE.

BANQUET AT LEAVENWORTH IMPEDES BUSINESS SOMEWHAT.

In Anticipation of a Feast of Reason and a Flow of Soul the Members Felt Inclined to Do Anything Except Introduce Bills.

Topeka, Kas., Peb. 1.—(Special.) The senate was neither in a fighting mood this morning nor did it develop any extravagant appearance of industry, it was evigant appearance of industry, it was evi-dent that the senators, at least on the Re-publican side, were pleasurably contem-plating the excursion to Leavenworth for this afternoon, with its attendant banquet, But little business was accomplished and that of little general interest, and after a recess of two hours the upper house ad-journed until to o'clock Monday morning. However, the ceaseless mills of the bill-makers continued to grind and enough new makers continued to grind and enough new acts were launched this morning to put the number only three less than sec.

Senator Taylor introduced a bill which

gives farmers' institutes representation of the state board of agriculture. Senator Dumbauld handed up a bill which elleves crippled or invalid ex-soldiers from

Senator Dumbauid handed up a bill which relieves crippled or invalid ex-soliders from the payment of license fees if they engage in pedding or business of that sort.

The committee on banking and insurance reported a bill to compet insurance companies to et apart certain premiums for the support of fire departments; also a bill to tax outleding and loan associations, and to regulate the powers and liabilities of insurance companies.

When the order of bills on third reading was reached the following were passed with hardly a dissenting vote:

An act providing for the levy on and sale of corporate stock by indicial process. An act requiring hedges to be cut at all intersections of public nighways with railroads, affixing a penalty for breach thereof. An act for the appropriation of interest received from the permanent fund of the Kaussas state agricultural college.

An act making an appropriation for finishing and furnishing the cottage now under construction at the industrial school for girls, at Belott.

An act prescribing penalty for accepting bribes.

An ect to prevent railway companies from employing inexperienced engineers

An set to prevent railway companies from employing thexperienced engineers and conductors, and providing a penalty for the same.

The house, probably in anticipation of the fact that they were soon to depart to engage in the hilarious festivities of Leavenworth, and wanted to get through with the business on hand, spent no time in talk this morning. They managed, however, in the brief space of twenty minutes to introduce twenty-six new bills, and some of them long enough to fill a moderate size volume. Among those introduced were:

duced were:
House bill No. 638, by Funk, appropriating \$5.699 for the state slik station at Peabody.
House bill No. 639 fixes the fees and salaries of the county officers of Lyon County.

House bill No. 640, by Tucker, provides for the deposit of county funds in banks, not over \$50,000 to be deposited in any one

not over \$8,000 to be deposited in any one bank.

House bill No. 642, by Miller, of Morris, revises the militia law of the state.

House bill No. 643, by Street, provides that no license fee shall be charged old crippied soldlers.

House bill No. 644, by Duffy, creates a state board of examiners to examine applicants for state mine inspector.

House bill No. 646, by Eckstein, protects unions and associations of working men in their labels and trade marks.

House bill No. 647, by Eckstein, provides for the payment of assessors at the rate of 33 per day.

House bill 449, by Caldwell, proposes to reimburse Nicholas Wiel for losses sustained during the Price raid to the extent of \$1.500.

The house then passed for a brief time on to the third reading of bills, and passed the deficiency appropriation bill for the girls industrial school at Beloit. This bill makes an appropriation of \$1,000 to pay deficiencies. Also a bill authorizing the crection of a bridge across the Kaw at Topeka, and authorizing the commissioners of Shawnee county to issue bonds in payment therefor.

At 1929 o'clock the house adjourned until Monday afternoon at 2 o'clock.

There was an unusually light lobby this morning, but about the usual amount of noise. The house has got to a point where even-ing sessions will be in order from time to time. It decided to hold a special session Monday evening for the consideration of local bills.

local bills.

The composition of the house shows that the generation that fought in the war is going on the retired list. Twenty-seven members of the present house served in the army during the rebellion. One served in the war with Mexico. Of the balance of the members, not more than four were old enough to go into the army.

Representative Painter, of Mende who is old enough to go into the army.

Chief Arthur in California.

San Francisco, Feb. 1,—Chief P. M. Arthur, of the locomotive engineers, arrived here last night to adjust the difficulty between the engineers and the Southern Pacific Railroad Company. He was met by a committee of engineers at the Oakland Mole and escorted to the Baldwin hotel. Regarding the railroad trouble he spoke briefly and tersely: "I am supposed not to know anything about it in detail, and really do not," he said. "All I know is that I have been called here to help an adjustment. After I have seen and conferred with the committee from the engineers and have met the railroad people I will tell you all about it, but until that time I must keep things in absyance."

DEPUTY MARSHAL WOOD.

A Man Everybody Knows Tells of His Wonderful Cure by Dr. Greene's Nervura-The Strongest Evidence Possible That This Great Medicine Will Cure You.

When such a widely known public man as A. B. Wood, deputy marshal of West Indianapolis, Ind., makes a statement, the world knows that it is true-that he means every word of it. Mr. Wood resides at 21 Marion avenue. West Indianapolis, Ind.He has been cured by the great medicine, Dr. Greene's Nervura blood and nerve remedy, from utter nervous prostration and exhaustion. He deems the cure most wonderful, and the medicine which cured him a most wonderful remedy. He is anxious, therefore, to tell the world of his remarkable restoration to health, and to thus lead others to health by the use of the same grand remedy.

"I had been troubled," said Mr. Wood, "for twenty years with nervousness, heart disease and gastric catarrh of the stomach, and makes a serious mistake if they delay a moment longer to use this, without doubt, restoration to health, and to thus lead others to health by the use of the same grand remedy.

"I had been troubled," said Mr. Wood, "for twenty years with nervousness, heart disease and gastric catarrh of the stomach, and the grand the care of two eminent prostration, and was taken to my bed.

"I was under the care of two eminent physicians. Finally, through a friend, I was induced to try Dr. Greene's Nervura blood and nerve remedy.

A DISAPPOINTING MONTH.

CARY DID NOT COME. The Month Shows the Lowest Average of Prices for All Commodities Ever Known - But Little Commercial Demand for Money.

BUSINESS REVIVAL EXPECTED IN JAN

panies of the state in proportion to the number of years of service of each company. House bill No. 661 by Cox, provides that any contract in any insurance policy limiting the time in which are action may be brought on the policy, shall be void.

The speaker appointed as a special committee to investigate Superintendent of Insurance Shider, as to his action in the matter of the New York Life insurance Company reciprocal tax, Cox, Hanna and Moss.

The house then passed for a brief time on to the third reading of bills, and sign of prices for all commodifies ever known-for cotton, fron and its products; wool and silver, the lowest monthly everages ever known; and for wheat a range above the minimum, but yet declining rapidly toward that point, industrial operations have not materially diminished, though it has been a disappointing month because the revival expected has not come. The continuing dirit of money to New York shows scanty commercial demand in the interior, and no improvement appears here in commercial loans. In short, business is still waiting and finds reason for hesitation in the condition of the treasury. Speculation has not favored producers. Wheat was 'c cent lower, but Western receipts were only 1,25,012 bushels, against 1,572,17 bushels last year, and exports larger than last year, might have helpest prices, had not the visible stocks been so large. Corn is 2s lower, with receipts about half, and exports not one-eighth of last year's.

Silver has been weak and for the month has made slightly the lowest average ever known, the output in 184 being reckoned by Wells-Fargo & Co. at £25,721,04, or 45,585,911 ounces. The decrease was 12 per cent, while the increase in gold was 35 per cent, while the increase in gold was 35 per cent, while the increase in gold was 35 per cent, while the increase in gold was 35 per cent, while the increase in gold was 35 per cent.

Wool is so low that large sales for possible futures continue, and the total at the chief markets for four weeks have been 25, 157, 95, pounds, against 25, 727, 150 two years ago.

Failures for the past week have been 25, 157, 95, pounds, against 25, 727, 150 two years ago.

treasury has had a depressing effect on general trade.

Among twenty staple products, four have remained steady in price—wool, lumber, hides and leather—although in Western centers some grades of the last named have been held at an advance and at Laindon wool sold up slightly. More important decreases were on live cattle and bors, the latter like per cwt. Wheat, corn and oats, and pork tabout 31 per barrel after the bulls had tired of holding up quotations) and lard and cotton. Low temperature West has put up prices of eggs and points and quotations for coffee and sugar are higher.

The grain trade was surprised this week by Bradstreet's report of a relatively heavy

increase of stocks of wheat affoat for and in Europe, as a decrease had been anylicipated. During January experts of wheat, both coasts of the United States (flour included as wheat) have continued to average 3,000,000 bushels per week, but during six business days, ending January II, the total so experted was 2,485,000 bushels, as compared with 250,000 bushels the week before, 2,085,000 in the week on year ago, E.12,000 two years and and 4,700,000 in the corresponding week or 1992.

MISSOURI LEGISLATURE.

NEW BILL INTRODUCED FOR GOVERN-MENT OF THE STATE UNIVERSITY.

est and Cockrell Requested to Vote for the Anti-Options Bill by the House -Colonel Crisp Denies a Newspaper Story.

Jefferson Cliy, Mo, Feb. 1.—(Special.)
On the call for bills Major Bittinger introduced a bill, prepared by Judge Martin, dean of the law department in the state university, which entirely revises the law now controlling the state university. In brief, the provisions of the bill are as follows: Not more than five of the curators may be members of the same political party; but the governor may reappoint any of the present board of curators; as vacancies occur through death or resignation, the governor shall so appoint as to obtain the object contemplated—a non-partisan board. A law similar to this now applies with reference to the state normal schools. The bill provides that the corporate name of the curators shall be curators of the University of Missouri, It provides for the appointment annually curators of the University of Missouri, it provides for the appointment annually of three curators as an executive committee of school of mines and metallurgy, with like powers as those of the executive board of the university at Columbia; providing in general terms for the appointment of curators, their number, classification and tenure of other, for an inventory and appears on a content of curators.

ment of chirators their number, classification and tenure of office; for an inventory and appraisement of property in every department, and, under rules fixed by the curators, to compare with previous inventories and appraisements. The salary of the president and professors of the university are mane payable monthly, in warrants payable on demand, and not bearing interest. Provision is made that the university are mane payable monthly, in warrants payable on demand, and not bearing interest. Provision is made that the university shall receive supreme and appellate court reports, digests, session acts and two copies of every government report and publication issued in Missouri. If a legislator fails to appoint a caslet to the military school the governor may appoint from any destrict in the state. The rame of the agricultural and mechanical college is changed to college of agriculture and mechanic arts.

The resolution introduced yesterday, instructing Senators Vest and Cockrell to vote for the Hatch anti-options bill, went through this morning win but little opposition, but before adoption the word "instructive was changed to "request." This was done because two years ago Senator Vest squeezed the Democratic house, which presumed to instruct him. This house simply desired to put Mr. Vest on record again, and some of the leading Democrats desire to defeat him, so the word "request" was used. The farmer members have very little confidence in Vest.

After the passage of Mr. Davidson's resolution, Mr. Crisp and to have an extract read. Mr. Crisp was made to say, in the correspondence, that the United States senate was the American house of gods, Mr. Crisps said: "Mr. Speaker, I did not utter the words quoted as from my lips, i did sny that senators are simply the creatures of those who made them, and that, whatever gentlemen might think, this house has a right to instruct its creatures in the United States senate; that Britain has a house of gods it we cannot instruct them.

Britain has a house of lords, and we shall have a house of gods if we cannot instruct them."

Mr. Chinn moved the adoption of a responsible for contracts made for it by others, and that the Tribune is not responsible for contracts made for it by others, and that the Tribune be notified that the house refuses to accept its papers, and if the Tribune is laid upon the table of members the company does so upon its own responsibility. The Courier was elected as the official organ of this house. The Tribune has been regularly laid upon the desks of members each morning and it contains the house proceedings. The morning hour expired before final action had been taken upon the resolution.

Mr. Forterfield of Greene county, to-day introduced a bill to establish an appellate court discret in Southern Missouri. The couri to be located at Springfield. In 1882 the people of the state adopted a constitutional amendment enabling the location of such a court. The legislature in 1883 passed a bill establishing the Springfield appellate court. Gov rnor Marmaduke vetoed the bill, and at the time it was charged that he did so to satisfy a personal spite, because South Missouri had east a strong vote against him.

the house.

The entire afternoon to-day, in the house, was consumed in the a discussion of the cigarette bill. It was a hard tight, and at last the bill wont to engressment somewhat amended.

It is made a misdemeaner for any one to sell or give a cigar or cigarette to any child under the age of 18 years. A second section providing that any boy under 18 years old using tobacco or smoking a cigar or a cigarette in any public place, might be fined from \$2 to \$5 for so doing, was stricken from the bill. The desire was a incorporate the New York law into the statutes of this state, but the defeat of the second section eliminates the strongest feature of that law from the engressed.

Senate.

Senate.

Senater Pears introduced a bill this morning providing that the state librarian and the reporter of the supreme court give bond, and it fixes the amount of the bond. Some man in Columbia is without a situation. Senator Pears this morning introduced a bill creating the office of building commissioner for the state university.

Some time ago the senate adopted a rescoution calling upon President Jesse of the state university to furnish certain information, as rogards the number of teachers, professors, and their salaries, in that institution. President Jesse has not yet compled with the request. Senator Goodyscontrated as the senate state university to furnish the senate that in second to day infloduced a supplemental resolution has not been answered by information asked.
